

ASSIGNMENT 3

MODERN WEB DEVELOPMENT WORKSHOP 1 (CSE2191)

COURSE OUTCOMES- CO1, CO3, CO4

Learning Levels: Remembering(L1), Understanding(L2), Application(L3), Analysis(L4)

Name of the Assignment-> Lists and Links in HTML

Q No.	Question	Learning Levels
1	Design a page on 7 wonders of the world, Main Page should have an introduction para and list of 7 wonders. Create a link on the list so that when clicked it will show the corresponding 7 wonders. Individual pages should have an image and paragraph on the monument. Each of the individual pages should have a link to the main page.	L1,L2,L3,L4
2	Design an HTML page that includes links to your social media profiles. Each link should open in a new tab using the target="_blank" attribute. Provide icons or images for each social media platform next to the links.	L1,L2,L3,L4
3	Design an HTML document that includes: A header titled "My Favorite Books" having three sections: "Fiction", "Non-Fiction", and "Science". Each section should have a unique ID. At the top of the page, create a navigation menu with links that jump to each section when clicked. Note: The link to the "Fiction" section should be <code>Fiction</code> .	L1,L2,L3,L4
4	Design a webpage for an image gallery. Add a heading "My Image Gallery" using h1 tag to introduce the section. Insert six different images using <code></code> tag. Each image should have an appropriate alt attribute describing the image if it fails to load. Make each image clickable, linking to a larger version of the image using <code><a></code> tag, and it should open in a new tab.	L1,L2,L3,L4
5	Create a movie database page featuring genres like "Action," "Comedy," and "Drama." Add a heading as Movie Database. Create an nested list for Action Comedy and Drama. Each genre consists of 5 movie names. Make Each movie title	L1,L2,L3,L4

	a clickable hyperlink to its IMDb page using <a> tag, ensuring that link opens in a new tab with the target="_blank" attribute.	
6	Design a webpage that displays five different emoji images. When a user clicks on any emoji image, a description of that emoji should open in a new page and a new tab (use target = "_blank").	L1,L2,L3,L4
7	<p>Design a web page that lists different types of fruits as shown below. Each fruit in the list should have a clickable link that scrolls to the corresponding section on the same page where a description and picture of the fruit are provided. The descriptions should be displayed in alphabetical order based on the fruit's name.</p> <p>Soft Fruits</p> <p>Please Choose a Subtopic:</p> <ul style="list-style-type: none"> ● Strawberries ● Cane Fruits <ul style="list-style-type: none"> ○ Blackberries ○ Raspberries ○ Loganberries ● Bush Fruits <ul style="list-style-type: none"> ○ Blueberries ○ Huckleberries 	L1,L2,L3,L4
8	<p>Design a multi page website with your 5 favorite places. The main page will have a heading and a clickable tag line. Each click on the tag line will lead to a page dedicated to one of your favorite places. Each place's page will contain three navigation links:</p> <ul style="list-style-type: none"> ❖ A link to the next favorite place. ❖ A link to the previous place. ❖ A link to the main page 	L1,L2,L3, L4
